Art Unit: 1644

1. This application is in condition for allowance except for the following formal matters delineated in this Office Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for response to this action is set to expire **TWO MONTHS** from the date of this letter.

2. Regarding references to Figures in the specification, the specification needs to be amended such that where reference to a figure with multiple panels is made that the reference to the figure discloses the particular panels. For example, on page 38 of the specification, line 16, reference is made to "Figure 3". This needs to be amended to read on "Figures 3 A and B" because Figure 3 consists of two different panels. This applies to Figures 2 and 3 which all consist of multiple panels.

3. The abstract of the disclosure is objected to because it does not disclose the claimed invention (eg. the peptide of claim 41). Correction is required. See MPEP § 608.01(b).

4. The previously nonelected species of claims 45-50 have been rejoined now that the elected species has been found free of the prior art.

5. Regarding the formal drawings filed 6/17/2002, see the enclosed PTO-948.

6. Papers related to this application may be submitted to Group 1600 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Papers should be faxed to Group 1600 at (703) 308-4242.
